

# Africa Mineral & Sustainable Energy Forum (AMSEF) Kampala 13-15 September 2022

Africa Mineral & Sustainable Energy Forum (AMSEF) is a three (3) day Conference and Exhibition event hosted by the International University of East Africa (IUEA), Uganda; [www.iuea.ac.ug](http://www.iuea.ac.ug).

AMSEF presents a hybrid business platform that brings together African minerals, energy, renewable, power generation, and oil and gas industries to identify solutions and strategies to foster a secure, affordable and low-carbon energy mix for Africa and the international community, intending to find solutions to the current crisis in oil and gas resulting from the instability in Eastern Europe and with a commitment of fulfilling the Millennium Sustainable Development Goals relating to *Affordable & Clean Energy (SDG-7)*, *Industry, Innovation and Infrastructure (SDG-9)*, *Sustainable Cities and Communities (SDG-11)*, *Climate Action (SDG-13)*.

AMSEF is scheduled for **13th - 15th September 2022** at the **International University of East Africa Kampala- Uganda**. Under the Theme: **"Sustainable Energy for Africa; Future Trends"**. The event will be presided over by Keynote Speakers from International and Government Bodies.
